MONSTER PARADE
AIM OF COMMITTEE

Demonstration in Washington to Emphasize the Need of Preparedness Outlined.

GRAND MARSHAL HAZEN WANTS REPORTS OF UNITS

Special Arrangements Made for Children of Schools to Participate—Each to Carry Flag.

The plan for the formation of Washington's monster preparedness parade to be held Wednesday—Flag day—was announced last night by Grand Marshal Melvin C. Hazen.

At the same time the parade committee announced that a preliminary estimate indicated there will be approximately 51,000 marchers in line, exclusive of bands and persons riding on the floats.

Marshal Hazen last night sent out an urgent request to the organization commanders of the various units that each of them study the formation scheduled so as to be thoroughly acquainted with the plan of the line of march and be prepared to get his respective section in its proper position.

Organizations contemplating participating in the parade which have not already made application for a marching assignment will be given until noon tomorrow to do so. No entries will be received after that time.

To Start Promptly at 9:30 O'Clock.

The parade is scheduled to start promptly at 9:30 o'clock and all organization commanders are urged to have their units at the points and at the time indicated by the marshal. Publication of the units at this time is done in order to facilitate the organization of the big units and to insure that the entire movement can be accomplished with dispatch.

Children of the public and private schools of Washington will assemble at North Capitol street at 8 at 10:30 o'clock Wednesday morning. Chairman William F. Gude stated last night that it was his ambition that every child that was capable of participating in this big American demonstration should be permitted and urged to do so.

Any parent that desires to accompany their children in this division may do so. The school teachers of Washington also are urged to assist in the gathering of this great unit and every one is urged to see that each child is supplied with a flag and given an opportunity to show its patriotism.

An "Unattached" Division.

Marshal Hazen has organized a division to be known as the unattached division. This is for individuals who are not affiliated with any organization that is to march as a unit in the parade. This division will assemble at 12 o'clock on C street northwest, head at 3d street northwest. Every marcher must, of course, carry a flag.

The committee has made a rule that inasmuch as the President of the United States is going to march the entire route and then review the parade, every one that is able to walk should do so. The

Formation of Big Preparedness Parade and Time and Place Where Units Assemble

First Division.

Assemble Capitol Plaza, east front, 9 a.m.
Honorary grand marshal, Gen. S. B. M. Young, Marshal M. C. Hazen and staff.

United States Marine Band.
The President of the United States.
The executive committee.
Secretary Joseph P. Tumulty and the White House staff.

Second Division.

Assemble 2d street, head at B street northwest, 9 a.m.
Division marshals, Herman E. Gasch and Clifford Lanham.

Treasury Department, 2d street, head at B street, behind State Department.
Plate Printers' Union.
War Department, 2d street, head at F street northwest.

Department of Justice, 2d street, head at G street northwest.
Post Office Department, 2d street, head at Massachusetts avenue northwest.
City post office, 2d street, head at H street northwest.

Navy Department, I street, west of 2d street, head at 2d street.
Interior Department, K street, west of New Jersey avenue, head at New Jersey avenue.
Department of Commerce, L street, west of New Jersey avenue, head at New Jersey avenue.

Department of Labor, District of Columbia, and Interstate commerce commission, M street, at 3d.
Smithsonian, civil service, federal reserve board and federal trade commission, N street at 3d.

Government printing office, on North Capitol, head at G street.

Third Division.

Assemble at New Jersey avenue, head at B street northwest, 10 a.m. Division marshals, Gen. William E. Harvey and Col. R. D. Simms.

National Guard.
Military Service Legion.
Grand Army of the Republic.
Confederate Veterans.
Spanish War Veterans.
Sons of Veterans.
Sons of Confederate Veterans.
High School Cadets.
Girl Scouts.
Boy Scouts.
Gonzaga College.
Military Training Camp.
Plattburg Recruits.
St. John's College Cadets.

Fourth Division.

Assemble at North Capitol street, head at B street northwest, 10:30 a.m. Division marshals, William J. Fay and John O. Gheen.

High schools.
Grade schools.
Private schools.
Army and Navy Academy.
Soldiers' Arms School.
Stewart's Business College.
High School Teachers' Association.

Fifth Division.

Assemble Delaware avenue, head at B street northeast, 10:30 a.m. Division marshals, J. H. Brewer and Raymond Norton.

marshal has issued instructions to his aide that the rule should be complied with explicitly.

Every detail incident to the great demonstration has been completed, and Chairman Gude last night expressed himself as greatly pleased with the good work that had been accomplished by Marshal Hazen and his efficient adjutant, Maj. Harry Coope of the District National Guard. Maj. Coope, Marshal Hazen's secretary, Charles J. Columbus and the office force of the committee worked until late last night completing the thousand and one details incident to the orderly assembling of those who will appear in the line of march.

Has Promise of Co-operation.

Maj. Raymond Pullman, superintendent of police, is gratified with the promise of co-operation which he has received from police departments of large eastern cities, which will send some of their best detectives to Washington to assist in the local force to protect crowds viewing the preparedness parade. Commissioner Arthur Woods of the New York department, James Robinson of the Philadelphia bureau of police, Marshal Robert Carter of the Baltimore police department and others are expected to arrive in Washington their best men who are familiar with pickpockets, flimflammers and other criminals who may be expected to come into the city at any time crowds of people are gathering.

Second Deputy Commissioner Frank A. Lord of the New York police department wired Maj. Pullman yesterday morning that Lieut. Richard McKenna and Detective Sgt. B. Cassassa, who are rated as two of the most experienced police experts in pickpockets and similar classes of criminals in the United States, will be sent to Washington to co-operate with the detectives of the local central bureau in getting a line on any pickpockets who may drift into the city. The detectives sent by the other eastern departments will also be experts.

Public Order Committee to Aid.

Besides doing everything possible in co-operation with the local police to protect the crowds from pickpockets and flimflammers, the Washington police department will have the services of a very large public order committee, which will hold its first meeting tomorrow evening at 7:30 o'clock in the red room of the Willard Hotel. The second meeting of the committee will be held Tuesday evening, when all of the members of the committee will be sworn in as public order committee. In addition, the public order committee will issue a general warning for people to beware of pickpockets, flimflammers and other crooks.

There is always a number of persons who make it easy for pickpockets to work, particularly men who carry their pocketbooks in the hip pocket, as the police estimate four in five men do. The men familiar with the work of crooks know that the easiest thing in the world to do is to take a person's pocketbook from the hip pocket. Warning also will be issued for the benefit of the unsophisticated person who are careless enough to be caught by the old pocketbook game or any of the other familiar flimflam devices used by criminals. The local police say if the policy of "safety first" is carried out no one will have his money taken.

Protection to Residence Section.

A feature has also been made by Maj. Pullman to give the very best protection to the residential sections. In addition to regular patrol by policemen, men in plain clothes will be used both on foot and in automobiles to apprehend any suspicious persons who may be loitering in any locality. The householders are warned to leave either a member of the family or trusted servant in charge of the house when they go to view the parade.

Several members of the public order committee already have tendered the use of their automobiles to the local police for patrol work throughout the day (Wednesday), and a number of others are also expected to do likewise.

Sixth Division.

Assemble 1st street, head at Indiana avenue northwest, 10:45 a.m.; Division marshals, Thomas J. Fisher and John Beale.

Knights of Pythias.
Woodmen of the World.
Woman's Suffrage.

Eighth Division.

Assemble 4th street, head at Indiana

THE LIFE OF A SHIP.

Venerable Craft That Are Being Put Into Service.

From the New York Tribune.

The war has disintegrated a plenty of old hulks that we thought had passed away for good—hulks philosophic, chiefly. Last night two old sailing ships, the one built in 1775 and the other in 1786, patched up and put overboard in Denmark to reap the high carrying rates of a submarine age. This feat sounds like robbing the grave-yard, and it is unusual enough in the merchant trade. But it is not exactly amazing as ships go, and these hoary old Danish bottoms can undoubtedly give a good account of themselves. It is hard to say just what the record is for long-lived ships. A few years ago the oldest vessel afloat was said to be another Danish vessel, a small schooner named the Constance, laid down in no less distant a year than 1723. Next in point of honor stands the Victory. Laid down in 1759, she was past middle age when Nelson commanded her at Trafalgar in 1805. And she is still afloat at Portsmouth, flying the flag of the commander-in-chief of the British navy, even if the changing science of war has made her unwanted in the North sea. A recent Lloyd's Register gave one merchantman built in 1819, two in the twenties and twelve between 1820 and 1840.

According to American records, we are not as fond of our old ships on this side of the Atlantic. The fate that befell the Constance was a small schooner named the Constance, laid down in no less distant a year than 1723. Next in point of honor stands the Victory. Laid down in 1759, she was past middle age when Nelson commanded her at Trafalgar in 1805. And she is still afloat at Portsmouth, flying the flag of the commander-in-chief of the British navy, even if the changing science of war has made her unwanted in the North sea. A recent Lloyd's Register gave one merchantman built in 1819, two in the twenties and twelve between 1820 and 1840.

A recent Lloyd's Register gave one merchantman built in 1819, two in the twenties and twelve between 1820 and 1840.

The Beautiful Isle of Thasos.

From the London Chronicle.
Thasos, where British marines are alleged to have landed to liberate an imprisoned English dragonman, is the most northerly and the most beautiful of all the Aegean islands. It has a purely Greek population, but practically be-

longs to the Khedives of Egypt. This dates from the days of Mohammed Ali, the common sailor who rose to a throne. He was a native of Thasos, for which he always cherished strong affection, and received his beloved island as a gift from the sultan. Formerly Thasos was famous for gold and marble, but latterly large quantities of timber from the Khedivial fir forests have been exported to Egypt. In the present war Thasos occupies an important strategic position, commanding the port of Kavalla, on the opposite mainland, and the Germans, who "thought of everything," have tried to establish themselves there by the "peaceful penetration" of a strong colony.

The first steel pens were sold for about 40 cents each.

Shakespeare Plus Cervantes.

From the London Chronicle.
There is an old tradition which links Cervantes with Shakespeare in connection with the lost play "Cardenio." "Cardenio," which was twice acted at court by Shakespeare's company in 1613, and was announced for publication some forty years later as "The History of Cardenio, by Fletcher and Shakespeare." The publication never took place, and nothing is otherwise known of the piece with certainty, but Sir Sidney Lee believes it to have been a dramatic version of the adventures of the lovelorn Cardenio, related in the first part of "Don Quixote." Shelton's translation of which appeared in 1812.

When You Buy a Gift for the Graduate or Bride of Edwards & Zanner Co.

You Can Be Absolutely Certain It Is the Best.

For the Graduate

Gold Filled Wrist Watch, \$5.00 to \$15.00.

Genuine Diamond Lavalliers, \$3.50 to \$50.

Little Finger Rings solid gold, new styles all colors stones, \$3.00 to \$10.00.

4-piece Tea Set; sterling silver; beautiful pattern; a rare bargain at \$85.00.

Edwards & Zanner Co.

432 Seventh Street N.W.

Production and Price

Do the great variety of Sixes and the fluctuating prices seem confusing and perplexing?

Let's reason it out.

What controls price? Production.

As a manufacturer's production increases, his production cost, per car, decreases.

Therefore the plant with the largest production is in a position to give more of everything and charge less for it.

We are the world's largest producers of Six and Four Cylinder Automobiles.

Consequently you get in the Overland Six a larger and more powerful motor—a longer wheelbase—the convenience of electric control buttons on the steering column and an almost endless list of other comforts and refinements.

—yet what is the price?

Not \$1200 or \$1300 but \$1145.

And when it comes to a Six Cylinder performance, remember the Overland Six is the star of them all.

One ride will convince you.
